**Subject:** FW: Meeting Request re: Automotive Fuel Economy Regulations

Hi Alex/Josh

Can you reach out and have Bill or Mandy meet on behalf of the Administrator? Thank you.

**Subject:** Meeting Request re: Automotive Fuel Economy Regulations

Dear Administrator Wheeler,

Following the recently proposed draft rule on fuel economy and greenhouse gas emissions standards, I would like to request a meeting with you and a few senior leaders of the U.S. aluminum industry for a brief discussion on the administration's priorities for automotive fuel economy regulations for 2025 and beyond.

We would like an opportunity to brief you on our public comment testimony, specifically on the topic of safety in lightweighting, as well as aluminum's role in helping drive domestic manufacturing jobs, bolstering energy security and supporting national defense. We also seek your input on additional information we can provide as part of this process to support the administration's regulatory objectives.

If your schedule permits, we propose **a meeting in Washington, D.C. ideally on Tuesday, October 2<sup>nd</sup> or Wednesday, Oct 3<sup>rd</sup>**. I, along with several senior level executives from Arconic, Constellation and Novelis, will be present.

I look forward to your response, and thank you for your consideration of this meeting request.

Kind regards,  
 Heidi
